PROFILE

With nearly seven years of front-end development experience, I specialize in building scalable, well-documented code. My expertise includes React.js, Next.js, JavaScript, HTML/CSS, Redux, and TypeScript, as well as tools like Tailwind, HeroUI, Material UI, and more. I continuously learn and stay current with the latest technologies to create high-quality, user-friendly applications. I'm eager to contribute to an organization that supports both personal and professional growth.

PROFESSIONAL EXPERIENCE

Frontend Developer, Dextrading August 2024 - September 2025
